Go organic! Yes, that's what all the nutritionists and doctors are advising you to do, these days! Organic is the only way to go if you want to live a long and healthy life. If you have reservations about making the shift from regular to organic produce, [follow the Nordic lifestyle](#) and see how they are slowly but surely inching towards an organic way of life!

Why should you go organic?

That's the first question that comes to our mind! Why in the wide world should we take to the organic way of life! Is it that whatever we have been eating till now can be regarded not as healthy? But we have still been incorporating [healthy fruits and vegetables](#) in our diet plans still what is going wrong? If we are skeptical about adopting a new lifestyle completely different from the previous one, then we must educate ourselves more

about this healthy lifestyle!

- **Avoiding chemicals are the first baby step towards a holistic way of life-**Chemicals in the form of pesticides on our food crops, the cosmetics that we use daily, whatever packaged foods we are consuming is laden with too much of chemicals.

The National Academy of sciences has declared that most of the chemicals used on food products have not been tested thoroughly and the long-term effects of these chemicals on humans are still unknown. So whether it is safe or not fit for consumption nobody actually knows! And that's downright scary.

- **Are inorganic foods stripped of nutrition?-** If we compare the inorganic food produce with the organic ones you will be surprised to know that there is a marked difference in the nutrient content of these two types of food products.

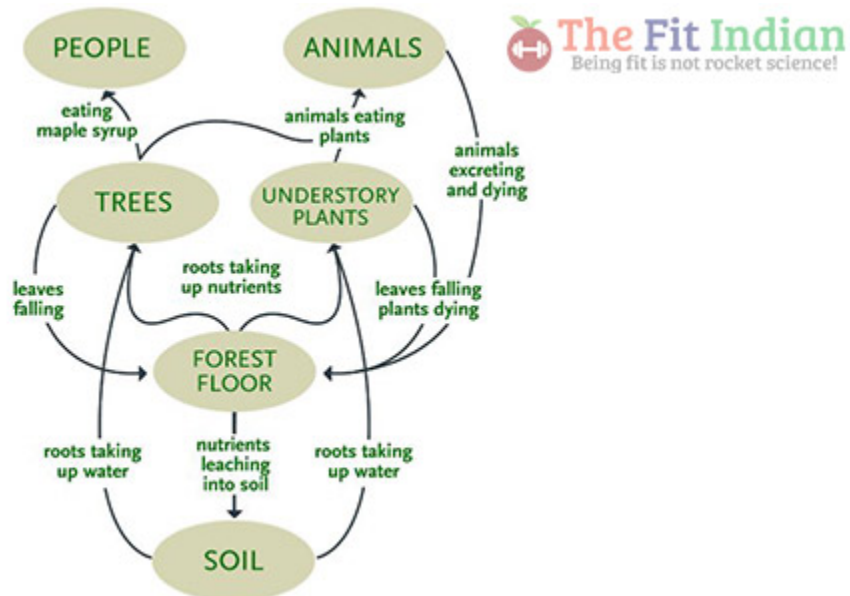

Organic food products contain 21.1% more iron, a whopping 27% more vitamin C, 13.6% more of phosphorus and a 29% more magnesium than inorganic produce. Isn't it reason enough for you to quickly embrace the organic way of life?

- **Less meat and milk consumption as they are injected with loads of hormones and antibiotics-** Most of the chemicals we manage to ingest into our systems are thanks to the tons of chemicals we inject in our cows and animals to ensure higher production in terms of milk meat and eggs.

Antibiotics, growth hormones, and drugs pass into the animals and when we consume meat, fish, and milk, those chemicals and hormones impact our body in the worst way possible. The result is the early onset of puberty, greater risk of tumors and cancers.

- Preserve our ecosystems with the help of organic farming-** Yes, organic way of farming preserves our ecosystems and the more we take care of soils and crops, by using a sustainable method of farming and reduce the use of pesticides, the better will be the condition of our ecosystems. Instead of interfering with the working of our eco-system we must let it be and let it function in its own unhurried pace.

How does the Nordic Diet fit into the Organic way of life?

The Nordics focus more on the flavor of the foods and the freshness of the food products than anything else. It is about relishing each bite with equal enthusiasm. If you enjoy more the propensity to overeat dies a silent death. Eat adequately but do not add a morsel more when you know you are satiated. Overeating, in fact, is a strict no-no.

1. Fried Cod Risotto

In the Nordic region, the cod is a very popular fish. The freshly caught cod, adds the much-needed flavor to the dish. It's rich in omega-6 fatty acids and thus, a great blend of taste and nutrition.

Serves: 3-4 people

Ingredients:

- 1 large onion
- 200 g Risotto rice
- 2 dl white wine
- 100 g Fresh peas (or frozen)
- 200 g Champignon mushroom
- 7 dl (3 cups) water
- 2 chicken stock powder
- About 450 g (1 lb.) Cod Fillet
- 1/2 lemon
- 1 tbsp. Butter
- 50 g Parmesan cheese
- Pinch of salt and pepper

Method:

1. Make some chicken, broth by pouring some chicken stock powder in 3 cups of boiling water.
2. Shell the peas.
3. Clean the champignon mushrooms and slice them nicely. Fry them in hot oil in a frying pan. Keep frying until they turn a light brown color.
4. Finely chop the onions and fry them in hot oil. Add the risotto rice to the pan and fry over medium heat until they are done. They must be nice and pliant. Turn up the flame and add the white wine. Let the alcohol evaporate while stirring.
5. When the wine is absorbed by the rice turn down the heat and add 1/4 of the chicken water (broth). Stir in the chicken, water is absorbed by the rice. Then you add another 1/4 of the water and stir till it is absorbed. Continue adding water until there is no more breath left.
6. Add the peas and the sliced champignon mushrooms and let it all heat up for a couple of minutes. Do season with salt and pepper.

7. Turn off the heat and remove the pan. Add the grated Parmesan and mix well. Leave the Risotto while you fry the cod. Season the cod with some salt and fry it for a couple of minutes on each side. Serve the cod on top of risotto.

Ingredients for Dressing:

- 125 g fresh spinach leaves
- 1 large avocado
- 400 g strawberries
- 500 g green asparagus
- 50 almonds, chopped
